INTRODUCTION

The Master of Music in Composition is a two-year programme. With your Bachelor's degree you have been trained to a good professional standard, but with the Master's programme you will develop a more distinctive personal style.

As in the Bachelor course, you will be taught by prominent international composers/teachers, from whom you will gain a clear impression of current practice and the standard expected of a Master's student. You will now be working mainly on long-term composition projects, sometime in combination with other disciplines. On completion of the Master's programme you will possess a sound level of craftsmanship and a wealth of experience in collaborating with professional musicians and ensembles. You will be capable of reflecting on your work and interpreting it in the context of current trends in contemporary art.

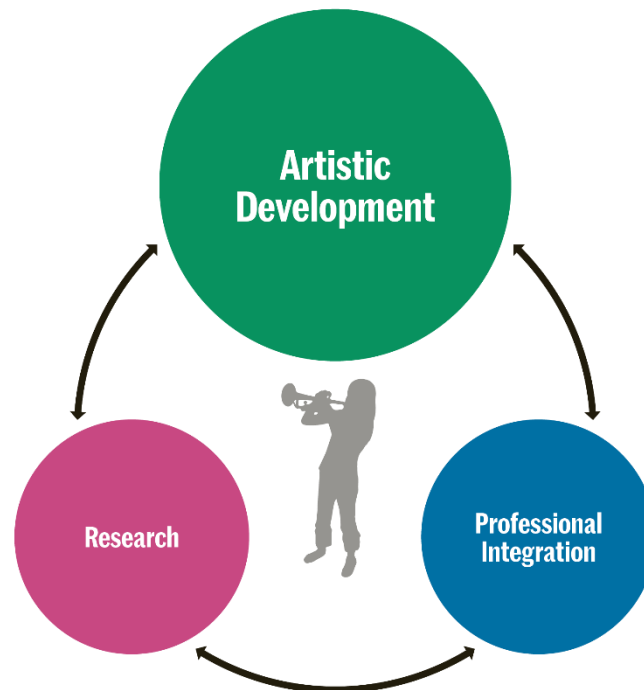

On completion of the Master's course you will have gained considerable experience in working with professional musicians and ensembles such as Asko|Schönberg, New European Ensemble, Residentie Orkest, Ensemble Klang, Modelo62, Kluster 5 and venues like Korzo, Studio Loos, Gaudeamus and the Nutshuis. In the 'research in and through musical practice' component of the curriculum you will study the theory and practice of composition in more depth. We also offer a cross-over programme, consisting of a selection of electives with which you can broaden or deepen your professional knowledge and musical training.

A specific form of education used in the Composition Department is informal education. This type of peer learning is extremely relevant and unique to our department. Outside of the lessons, students meet all the teachers, for example during projects, concerts and the Studium Generale. The result is an ongoing dialogue about quality, development and taste between students, their peers and teachers.

The Composition Department offers project-based education and has close ties with the professional field. The highlight is the annual Spring Festival, five days of non-stop performances of new compositions by the students in every conceivable genre and style. Every second year a leading international composer visits the school to give an intensive course. Guest lecturers have included John Adams, Hans Abrahamssen, Robert Ashley, Frederic Rzewski, Alvin Curran, Christian Wolff, Sylvano Bussotti, Richard Rijnvos, Jo Kondo, Magnus Lindberg and Kaija Saariaho.

Alumni of the Conservatoire's Composition Department such as Michel van der Aa, Richard Ayres, Allison Cameron, Mary Finsterer, Sam Hayden, Yannis Kyriakides, Steve Martland, Missy Mazzoli, Kate Moore, Martijn Padding, Richard Rijnvos, Michael Smetanin, Fabian Svensson and Thom Willems have achieved worldwide fame and their work is performed by the most celebrated Dutch and international musicians, orchestras, ensembles and opera companies at all the prestigious music festivals and venues.

This Curriculum Handbook aims to provide you with all necessary information related to the curriculum and courses of the master's programme in Composition. The handbook includes information on the Master of Music programme including the Master Project, Focus Areas and a timeline. After programme objectives and a schematic overview of the curriculum, you will find descriptions of all courses, including learning goals (called 'objectives') and assessment criteria. We recommend that you read this document, the Royal Conservatoire's Study Guide and the Education and Examination Regulations (EER) carefully.

The educational philosophy of the Master of Music programme at the Royal Conservatoire is dedicated to developing your individual artistic vision, personal growth, inquisitive and entrepreneurial attitude and independence, and your craft at a high qualitative level. We strive for our alumni to become excellent artists, and professionals who can reflect on their role in society and navigate the complex realities of today's music profession.

To guide your development, the curriculum is designed in three domains: artistic development – research – professional integration. The programme is aimed at helping you find your place in the professional practice. Therefore, you are constantly encouraged to make your own choices and develop and carry out your own ideas and plans. We challenge you to connect all three domains in a way that is meaningful and relevant to you, so that you can find your 'niche' and prepare yourself for your professional practice.

THE MASTER PROJECT

The main goal of the Master of Music programme is for students to develop and complete their own Master Project that will help them realise the professional practice they aspire by integrating the following three domains:

A. Artistic Development: You develop a vision for your artistic development: What characterises you as an artist in terms of motivations, interests and skills? What kind of artist would you like to become? What are your career aspirations? What do you need to work on in order to become this artist? How can your Master Project help you achieve your goals?

You will receive tuition by the teacher(s) of your main subject. Furthermore, you will participate in for example group lessons, projects, and masterclasses.

B. Research: Driven by your artistic vision, you conduct research that helps you reach your professional goals. You can use your research to inform and support your professional integration activity (PIA), or you can use your PIA as a case study in your research.

You will attend an introductory course on research in the arts and you will receive individual research supervision.

C. Professional Integration:

You design, develop and realise an activity that connects you with your desired professional practice and therefore brings you outside the walls of the conservatoire. This professional integration activity (PIA) is driven by your artistic goals. Your PIA can be used to explore how to put your vision into practice. It can be informed and supported by your research, or it can function as a case study.

You will attend an introductory course on project management during which you will design a plan for your PIA, and you will receive individual coaching by a professional integration coach.

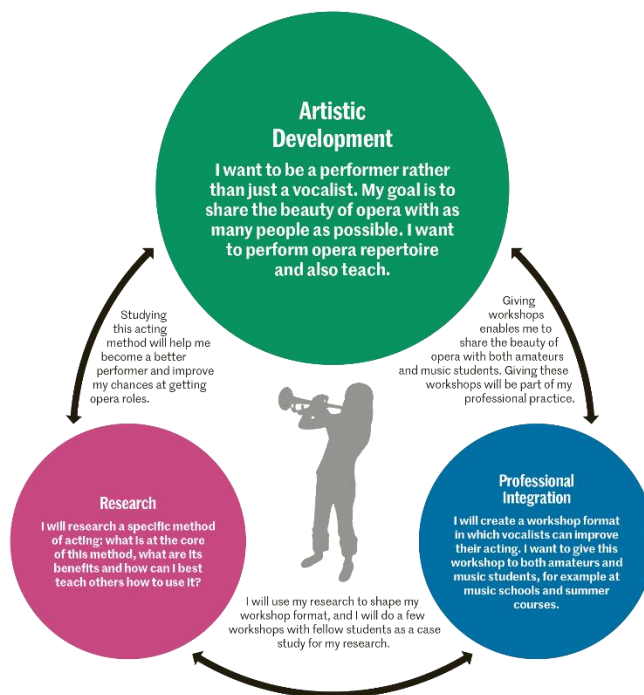

Master Circle

The monthly master circle is a peer learning group where the three domains of the Master Project come together and where you discuss the Master Project as a whole with your fellow students. The circles are organised by focus area. Every circle includes first- and second-year master students and is facilitated by a master circle leader.

MASTER PROJECT EXAMPLES

Here are some examples of potential Master Projects. This is a non-exhaustive list, as there are many possibilities to be explored. For example, you could collaborate with other students on a joint Master Project.

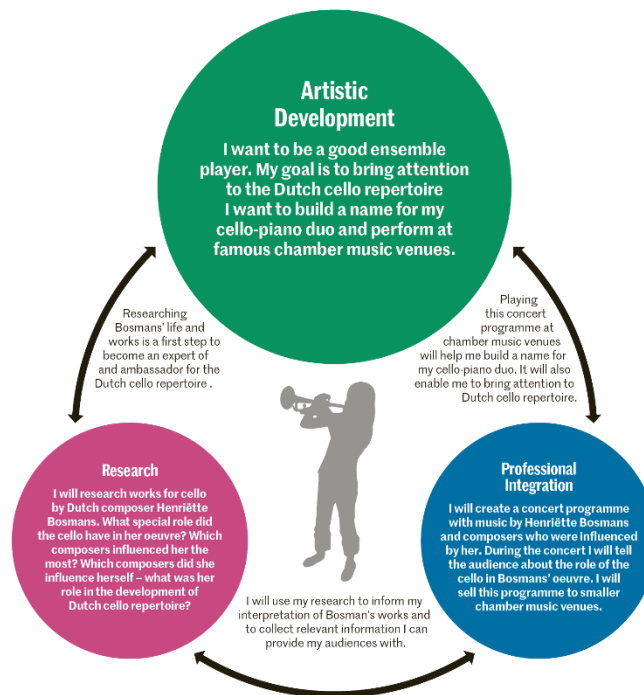

Example 1: Performer sharing the beauty of opera

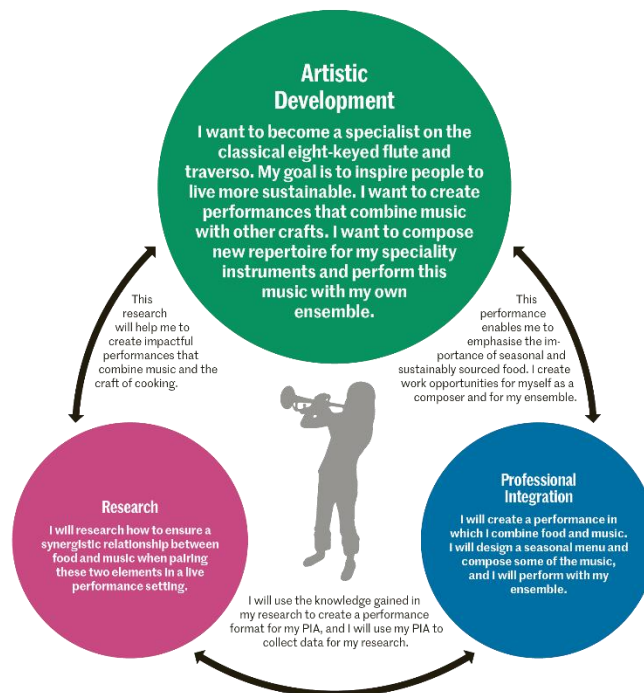

Example 2: Composing performer and band leader

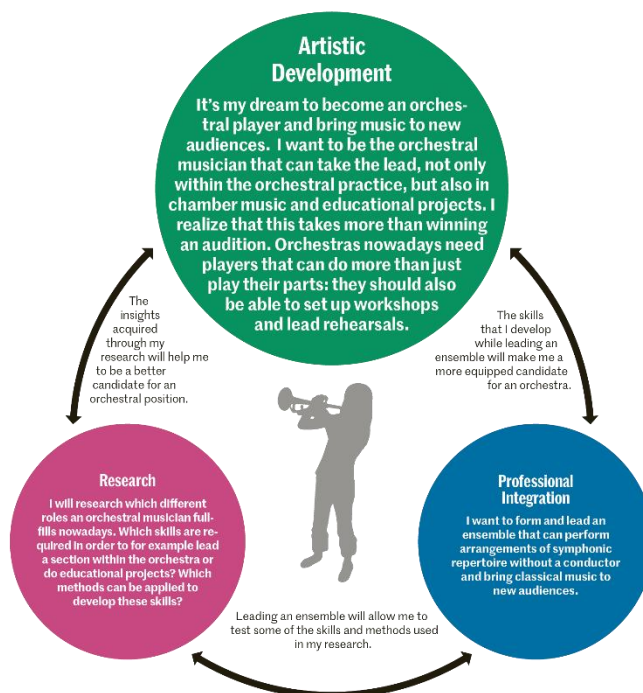

Example 3: Advocate for repertoire

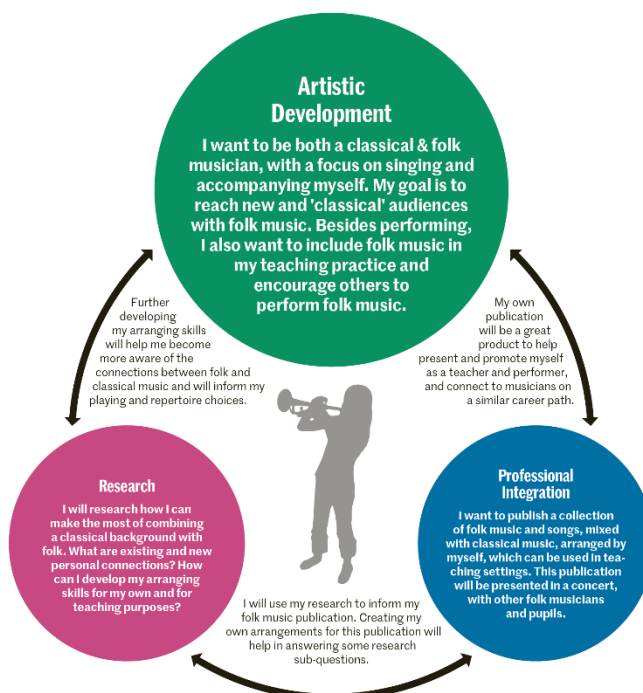

Example 4: Performer inspiring others through multi-disciplinary projects

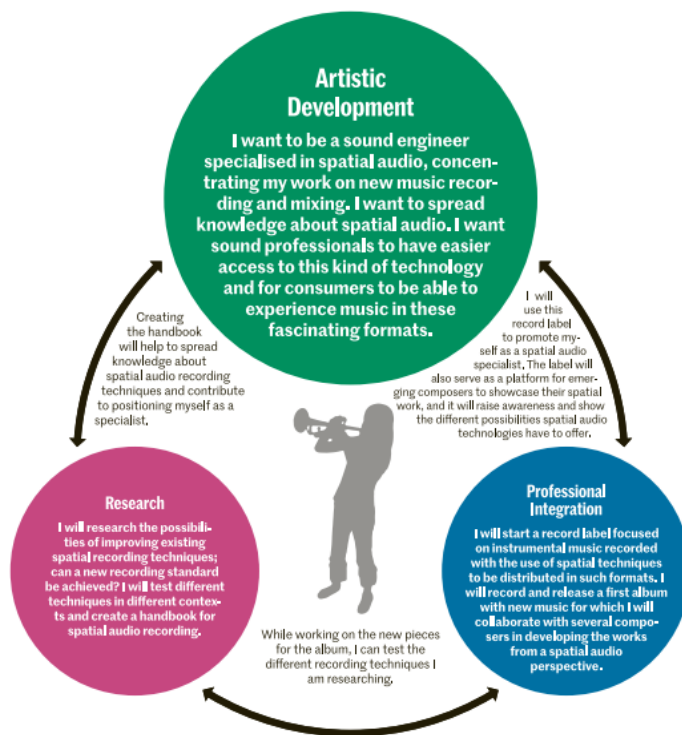

Example 5: Versatile orchestral player

Example 6: Classical folk musician

Example 7: Sound engineer spreading knowledge about spatial audio

MASTER PROJECT NETWORK

You are in control and at the centre of your Master Project – it’s all about what you want to do and what is meaningful to you! However, you are not alone: you are surrounded by a network of people who can guide you while developing and realising your Master Project. Each person in the network will provide guidance from

their specific perspectives. It is your own responsibility to keep them informed of all elements of your Master Project.

Your **main subject teacher**, who can help you define your artistic vision and artistic goals as point of departure for your Master Project.

Your **research supervisor**, who can help you with your Master Project from a research perspective.

Your **professional integration coach**, who can help you with your Master Project from a professional integration perspective.

Your **master circle**, consisting of your peers and master circle facilitator, with whom you can discuss the connection and coherence of artistic development, research and professional integration within your Master Project.

FOCUS AREAS

Students will be placed in a master circle which centres on one of the ten focus areas. The distribution of students over the various master circles is based on the Master Project Plans sent in as part of the application process. The focus areas are:

1. Art of Interpretation

Projects focused on the musical interpretation, contextualisation and performance of musical repertoire, both historical and contemporary. Besides artistic experimentation, research in this area presumes the critical study of various sources (scores, texts, recordings), which may inform and inspire the musical interpretation and eventually lead to altered approaches of performance practice. Professional integration activities may involve the curation and performance of concert programmes, the recording of an album or the creation of a thematic website, podcast or documentary.

2. Instruments, Techniques & Technologies

Projects focused on the design, use, role and function of instruments and their playing techniques in musical practice. Research in this area typically requires the application of knowledge about instrument making, acoustics or electronics, or the movement possibilities of the human body. Students in this area show a technically oriented interest, sensibility for sound and eagerness to experiment and develop. Examples are the exploration of historical, alternative or extended playing techniques, the use of microphones and amplification, the relation between instrumental set-ups and acoustics, and live electronics. Professional integration activities may include the development of new musical tools or instrumental prototypes, or instructive methods on playing techniques.

3. Music in Public Space

Topics related to the possible role and presence of music and artists in society and the public sphere. The research may focus on possibilities for enhancing the relevance of professional music practice in and outside the concert hall, the presence of artists in (social) media, and the interaction with audiences. Professional integration activities may lead to innovative curatorial practices, music projects and artistic profiles in the public sphere. Social engagement, communicative interaction and entrepreneurial attitude are essential in this area. In comparison to focus areas 7 and 8, the visibility and public character of the project outcomes should be central.

4. Creative Processes

Projects in this area zoom in on the making of music. Possible topics are the role of imagination, musical traditions, the interaction between composers and performers or the role of musical tools and notation techniques in creation processes. Artistic experimentation and documentation of the creative process are essential tools for researching in this area. Professional integration activities require an attitude of openness and curiosity towards all possible actors and elements that may contribute to the creation of music. The perspective of the creating artist is central, but also her ability to situate and contextualise project outcomes in a wider artistic and cultural context.

5. Beyond Discipline

Projects that deal with the interaction between different disciplines and media. What can music's relation to literature, dance, film, visual arts, theatre, and installation art be? How can the interaction with non-artistic disciplines, new technologies and digital tools inspire musical creation? Research in this area investigates how different disciplines can influence and inform each other, and how the interaction between different media can create new forms of expression. Professional integration activities aim to realise innovative approaches to music experience through the use of multiple media and collaborations beyond disciplines. Curiosity, risk-taking and the willingness to temporarily put on hold the norms and values of common musical craftsmanship are characteristic values in this area.

6. Musical Training, Performance & Cognition

Topics related to the process of musical learning and performance. The focus may be on musical preparation, avoidance of injuries, musical memory, mental and physical focus in performance, or the improvement of musical training and rehearsal methods. Research in this area is often informed by other fields of knowledge such as (music) psychology, biomedical sciences, physiotherapy, etc. Professional integration activities aim at sharing new knowledge and best practices, in a diversity of formats. Although there are possible overlaps with focus areas 8 and 9, the performer's perspective is central in this area.

7. Aesthetics & Cultural Discourse

What are the origins of standards, beliefs and values that relate to musical practice? The student's musical practice and personal experience are starting points for a broader cultural and aesthetic inquiry. Examples of topics are the investigation and challenging of sound ideals and historical conceptions of 'the beautiful', 'musical taste' or 'musical quality'. Hot topics regarding cultural identity, environmentalism, decolonization or gender representation in music may also play a role. Students in this area have an affinity for reasoning, discussing and writing. The use of language may play an important role in professional integration activities, in combination with artistic practice.

8. Co-creative and Educational Settings

Working with people is key in this focus area. Research investigates co-creative, participatory or educational processes. The professional integration activities aim at working with, in, and through music with amateurs, children, elderly people or other participants. The role of the student in these projects is that of a coach, guide, teacher or cultural mediator. The context for research and professional integration activities can be classrooms, elderly homes, participatory art projects or other contexts for social-cultural work. Although the student's artistry remains crucial, projects in this area always consider the participant's experience as a guiding principle in musical activities.

9. Music Theory & Aural Skills

Topics in this area focus on the combined theoretical and aural understanding of music as an acoustic and cultural phenomenon. Examples are the investigation of tuning systems, scales and modes and their application in music, or the relationship between rhetoric and musical form in baroque music. Projects in this area often aim at systemizing knowledge in order to apply it to music didactics. An analytical and clear methodical approach is characteristic for both research and professional integration activities in this area.

10. Artistic Knowledge & Scientific Inquiry

This focus area investigates how artistic practice and scientific inquiry can mutually enrich one another. Students explore how scientific concepts, methods and data can inspire musical and artistic creation, and how artistic processes can, in turn, generate new insights, forms of knowledge, or modes of scientific communication. Projects may involve working with scientific datasets to create sound-based interpretations or musical structures; translating scientific models into artistic formats; exploring bioacoustics, sonification, or sensory augmentation; or collaborating with scientists in laboratories, observatories, or field research contexts. Students in this area are curious about empirical inquiry and seek to translate complex scientific systems into meaningful artistic and musical experiences.

PROGRAMME OBJECTIVES MASTER COMPOSITION

Below you will find a set of requirements which we call programme objectives. These are the minimum requirements that you need to meet in order to obtain a Master of Music degree from the Royal Conservatoire. Our programme objectives are based on the AEC Learning Outcomes (2017)¹, an international qualification framework developed by the European Association of Conservatoires (AEC), which is based on a broad consultation with institutions all over Europe and experts from the music profession. The objectives have been adapted where necessary to fit the study programme of our MMus in Composition.

The master programme objectives are divided in three categories: A) practical outcomes, B) theoretical outcomes and C) generic outcomes – and are numbered for ease of reference. The AEC Learning Outcomes refer to three cycles: 1st cycle (Bachelor), 2nd cycle (Master) and 3rd cycle (Doctoral). Therefore all master objectives start with the number 2. In the course descriptions, the field ‘programme objectives’ refers to these codes, e.g. 2.A.1, 2.B.5, 2.C.10. This means that the course contributes to obtaining the skills and knowledge described in those objectives. There may be several courses contributing to the same objectives.

At the end of the Master of Music in Composition programme, you:

Practical (skills-based) outcomes

- 2.A.1. Create and/or produce music to a high professional level, expressing your own artistic concepts and reflecting a well-developed musical personality.
- 2.A.2. Evidence advanced craft skills in relation to the creation of new repertoire in various disciplines, musical languages, and genres.
- 2.A.3. Demonstrate breadth and/or depth of specialist knowledge in relation to your creative work, evidencing fluency across a range of musical languages and/or a distinctive and individual voice in one particular language.
- 2.A.4. Demonstrate ability to create, realise and express your own artistic concepts, ensuring that any areas of relative weakness in relation to the compositional process have been addressed.
- 2.A.5. Play a leading role as a composer in ensemble and/or any interdisciplinary collaborative activity.
- 2.A.6. Demonstrate a high level of improvisational fluency.
- 2.A.7. Evidence ability to develop, research and evaluate ideas, concepts and processes as appropriate within your own artistic practice.
- 2.A.8. Demonstrate excellent command in a range of communication modes associated with your practice and its presentation to both specialist and non-specialist audiences.
- 2.A.9. Exhibit advanced competence in technological utilisation and application, including working with electronics in a studio and in a live environment.
- 2.A.10. Take responsibility for the engagement between context, audience and musical material, projecting your ideas fluently and with confidence in a wide variety of performance settings.
- 2.A.12. Engage with a high level of critical self-reflection in relation to your own personal learning style, skills and strategies.
- 2.A.13. Evidence ability to translate theoretical knowledge into practical activities to enable musical learning and creative processes in others.
- 2.A.14. Demonstrate sensitivity with regard to the subjects of your research, respecting diversity in the characteristics of individuals and contexts, and considering the ethical dimensions of your work.
- 2.A.15. In relation to relevant self-identified professional pathways or opportunities, demonstrate an advanced understanding of the versatile working field, and identify and formulate strategies for developing engagement with them.

Theoretical (knowledge-based) outcomes

- 2.B.1. Demonstrate sophisticated knowledge of practices, languages, forms, materials, technologies and techniques in music relevant to your core and, as appropriate, related disciplines, and their associated texts, resources and concepts.
- 2.B.2. Exhibit comprehensive knowledge of repertoire within your area of musical study.
- 2.B.3. Develop and extend your knowledge of the theoretical, historical and social contexts in which music is created and presented.
- 2.B.7. Evidence understanding of a range of advanced investigative techniques, enabling the application of selected (experimental) approaches to develop, frame, research and evaluate ideas, concepts and processes as appropriate within your artistic practice.
- 2.B.8. Identify and utilise relevant literature and/or other resources as appropriate to inform your practice and development within your area of study.
- 2.B.9. Identify and employ advanced research, study, communication and presentation techniques to independently develop and deliver an in-depth artistic project.
- 2.B.10. Recognise the importance of utilising specific technologies to enable the creation, dissemination and/or performance of music appropriate to your artistic practice.
- 2.B.12. Demonstrate a thorough understanding of the role of the composer in contemporary society, researching, engaging with and reflecting upon specific relevant professional and social working environments and contexts.

Generic outcomes

- 2.C.1. Exhibit a high level of skills in critical thinking and critical awareness.
- 2.C.2. Demonstrate independence in all aspects of learning, social interaction, and the identification of opportunities.
- 2.C.3. Exhibit confidence and competence in the use of a range of communication and social skills as appropriate to context.
- 2.C.4. Exhibit appropriate leadership, teamwork, negotiation and/or coordination skills, taking account of a variety of artistic, cultural, and social contexts.
- 2.C.5. Evidence ability to integrate knowledge drawn from a variety of contexts or perspectives.
- 2.C.6. Demonstrate independent thought supported by rational and evidence-based application of knowledge in undertaking tasks that may be:
- in new or unfamiliar contexts
 - extended and complex
 - based upon incomplete or limited information.
- 2.C.7. Recognise the interrelationship between theory and practice, and apply such knowledge to underpin and strengthen your own artistic development.
- 2.C.8. Demonstrate ability and willingness to communicate knowledge and ideas through modes other than notation, performance and/ or other musical outputs (recordings, etc.).
- 2.C.9. Consistently analyse, interrogate, utilise, and respond creatively and appropriately to verbal and/or written feedback, ideas and impetus from others.
- 2.C.10. Initiate activities or projects, and work with others through interaction or collaboration.
- 2.C.11. Exhibit advanced and appropriate public presentation skills in all aspects of your practice and activity.
- 2.C.12. Exhibit a sensitivity to the learning styles and needs of others and ability to motivate and facilitate creativity and learning.
- 2.C.13. Engage with individuals and/or groups as appropriate and in relation to both your own, and a wider variety of, cultural, social and interdisciplinary contexts.

- 2.C.14. Engage and share information with specialist and non-specialist musicians and audiences across a broad spectrum of society, demonstrating awareness of individual and/or group reactions to such information and the ability to respond appropriately.
- 2.C.15. Exhibit confidence in using your own psychological understanding – and your sense of your own wellbeing, and that of others – to underpin decision making in a variety of situations associated with professional practice.
- 2.C.16. Demonstrate a positive attitude towards, willingness to engage and interest in, on-going (life-long) personal and professional development.
- 2.C.17.KC. Demonstrate a strong commitment to the integration of your artistic development, research interests and professional practice.

COURSE DESCRIPTIONS

ARTISTIC DEVELOPMENT

Main Subject Composition

Course title	Main Subject Composition (M)
Department responsible	Composition
OSIRIS course code	KC-M-CO-HV1-25; KC-M-CO-HV2-18
Type of course	Compulsory course
Prerequisites	You need to finish the first year of this course before being allowed to start the second.
Course content	<p>In the Master composition programme you receive intensive supervision as you deepen your compositional skills, carry out research and are given the time to cultivate your personal artistic voice. Besides a strong focus on technical and technological matters, the individual lessons will challenge you to experiment, expand your conceptual thinking and deepen your knowledge in the specific areas of personal artistic interest. Connections will frequently be made to your area of research. Tuition in the composition department is heavily grounded in the philosophies of Team Teaching and project education, which means that you will receive coaching by two main subject teachers and will be given a wide variety of projects specifically geared to your profile with which to start building your network. These projects, numbering over 40 a year in every conceivable format, can range from small chamber music pieces and electronic compositions to large-scale works for orchestra or musical theatre and from ensemble projects and speeddates, both acoustic and electroacoustic, to interdisciplinary and multimedia projects, extended studio/workshop projects and even annual small-scale opera productions. Contributing to the projects are prominent professional ensembles, musicians, stages and orchestras from the Netherlands and abroad, with performances taking place both within the conservatoire as well as outside. Aside from the projects on offer it is of course also possible to focus on a single large composition or a work that requires special research.</p> <p>Besides the individual main subject lessons you will receive supervision in your research and matters related to the professional presentation and dispersal of your work and ideas. In order to maintain a close connection with your compositional work, supervision is generally given by several of the main subject teachers but it is also possible to receive external supervision.</p>
Programme objectives	2.A.1, 2.A.2, 2.A.3, 2.A.4, 2.A.5, 2.A.7, 2.A.9, 2.A.12, 2.A.14, 2.A.15, 2.B.1, 2.B.2, 2.B.3, 2.B.7, 2.B.8, 2.B.9, 2.B.10, 2.B.12, 2.C.1, 2.C.2, 2.C.3, 2.C.4, 2.C.5, 2.C.6, 2.C.7, 2.C.8
Course objectives	At the end of this course, you:

	<ul style="list-style-type: none"> ▪ have developed strong awareness in your conceptual thinking and compositional focus; ▪ have realized a sizable compositional output related to your research and artistic development; ▪ demonstrate the capacity to find creative compositional solutions at a high (Master's) level; ▪ show progressive deepening of your artistic development and a craftsmanship that enables you to operate independently as a professional, within national and international contexts; ▪ have a clear awareness of current developments in the arts in general and contemporary music in particular and are able to position yourself and your work in relation to those developments; ▪ can act as your own teacher by demonstrating knowledge of what determines the quality of your work and how to maintain and further develop that standard, by continuing to learn independently.
Credits	33 ECTS per academic year
Level	Master
Work form	Individual lessons, research, project participation
Literature	-
Language	English or Dutch
Scheduling	Individual lessons: 60 minutes per week, 34 weeks per academic year.
Date, time & venue	Weekly individual lessons by appointment
Teachers	Calliope Tsoupaki, Peter Adriaansz, Yannis Kyriakides, Mayke Nas, Trevor Grahl and guest teachers
Contact information	Mayke Nas (Head) - composition@koncon.nl
Assessment	This course is assessed using the following assignments. The assignments will have to be passed in order to pass this course.
Assignment	Assignment 1
Assignment type	M1: Presentation
Assignment description	Presentation on your own work in the form of a brief review of your progress in year 1 with the teachers of the composition department. Alongside this review the submission of a short written self-evaluation of your developments over the year will be required.
Assignment requirements	The presented work is the result of and/or has a clear connection with your Master Project.
Assignment planning	May-June
Assessment criteria	The presentation is evaluated according to the Assessment Criteria for Bachelor and Master Composition which can be found in Appendix 1 of this Curriculum Handbook.
Weighting	100%
Grading scale	Pass/Fail
Re-assignment description	Same as assignment(s) above
Re-assignment planning	In consultation with the department
Assignment	Assignment 2
Assignment type	M2: Final Presentation
Assignment description	Final Presentation on your own work. Your presentation will be assessed by a committee of teachers and external

	experts and consists of a personal introduction and an examination of submitted works.
Assignment requirements	For your final presentation you will be required to submit a written self-reflection and a portfolio of works written throughout your Master studies. This portfolio should consist of four to five works prioritized according to your own preference and motivated/commented upon in a short 15' introduction to your exam, where you will receive the opportunity to reflect on your progress and ideas over the two years of your studies. This introduction serves both as an opportunity to elucidate on your development as well as demonstrate awareness of your own positioning in the arts in general and the field of composition in particular. The presented works should show a clear connection or be the result of your Master Project. Alongside the prioritized works to be studied by the examiners, your portfolio should also include a list of all works written over the duration of your Master studies.
Assignment planning	May-June
Assessment criteria	The (final) presentation is evaluated according to the Assessment Criteria for Bachelor and Master Composition which can be found in Appendix 1 of this Curriculum Handbook.
Weighting	100%
Grading scale	Numeric
Re-assignment description	Same as assignment(s) above
Re-assignment planning	In consultation with the department
Practical Information about Presentations and Final Presentations	<p>For generic practical information on Presentations and Final Presentations, including forms for technical support, go to this KC Portal page and make sure you take a look at the Presentation and Final Presentations documents.</p> <p>M2 Final Presentation</p> <p>Please note you are required to submit an Artistic Reflection. Artistic Reflection guidelines: <i>The artistic reflection is a document of approx. 500-1000 words that describes your artistic development over the past two years, and your future artistic visions and dreams. The text should also include a reflection on your Master Project and explain how your research component and professional integration activity have influenced your artistic development. How did the integration of the three domains take place and how will this impact your future plans? If your Final Presentation is strongly connected to or the direct result of your Master Project, this text (which will be read by the Committee of Examiners) will be particularly helpful for all members of the Committee (including external examiners or other main subject teachers).</i></p> <p>For the overall examination regulations please see the 'Education and Examination Regulations' (EER) in the Study Guide, on koncon.nl or on the KC Portal.</p>

Spring Festival

Course title	Spring Festival (M)
Department responsible	Composition
OSIRIS course code	N/A, as part of Main Subject Composition
Type of course	Compulsory course
Prerequisites	Non applicable
Course content	<p>The Spring Festival was started (under another name) in 1967 by the Dutch composer Dick Raaijmakers. Its ambition is to highlight the latest developments in contemporary music. The festival lasts four to five days and evenings in the month of April and consists of performances of work by the students of the Composition Department as well as composers affiliated to the department. Work for ensembles, soloists, electronics, improvisations and a wide range of interdisciplinary work are performed. Sometimes an (international) guest might be present and lectures/workshops are also included in the program. There is special attention for collaboration projects between the Composition Department and the other Creative Partners (Sonology, ArtScience). You work together with the teachers of the Composition Department but also with the head producer of the festival, the theatre coordinator, the EWP (electronic work place) and the sound technicians (Art of Sound). You collaborate in projects with ensembles like Modelo62, Ensemble Klang, the New European Ensemble, Kluster5, Ensemble Royaal, Scordatura Ensemble and a wide range of ad hoc or special interdepartmental initiatives. Concerts/events take place in and around the Royal Conservatoire. Students take an active role in organizing performers, programming, production, coaching and making publicity for the event. It is the foremost event in the curriculum to prepare the composition students for a future career in the professional field.</p>

Course title	Studium Generale (M)
Department responsible	Composition
OSIRIS course code	KC-M-CO-SG1-25; KC-M-CO-SG2-25
Type of course	Compulsory course
Prerequisites	Non applicable
Course content	<p>An important component of the Composition programme is the Studium Generale. This is a weekly group lesson for all students of the Composition Department (Bachelor and Master) which is moderated by the composition teachers. In these lessons national and international guests are regularly invited to give lectures about their work but the class is foremost a platform where students can give presentations on their own work and ideas. The class can occasionally take on a more practical form when ensembles present themselves and/or specific projects are initiated or presented. The purpose of the Studium Generale is to give students the opportunity to discuss musical and artistic matters related to own work as well as within the political, social or cultural framework in which artists function. The Studium Generale is a place where students can sharpen and finetune their views and communication skills through discussions with their peers and teachers.</p> <p>Master 1 and 2 students are required to do at least one presentation per academic year. Other students (Bachelor 1 and 2, Erasmus students, AC, PM students) can sign up for presentations if time allows. The Studium Generale is compulsory for all students of the department, is monitored weekly and attendance (80%) will feature in your overall assessment.</p>

Master Composition Seminars

Course title	Master Composition Seminars
Department responsible	Composition
OSIRIS course code	KC-M-CO-MCS1-25
Type of course	Compulsory course
Prerequisites	Non applicable
Course content	In the Master Composition Seminars the students of both Master years come together once a month to discuss composition and individual research amongst their colleagues. The seminars are offered alongside the Master Circles and are geared specifically towards composition students and topics closely related to the creative practice. For a large part the classes consist of the preparation and reading around specific topics, in the form of articles and essays which are brought in by teachers and students alike and are then discussed collectively in matters of content and writing. Each year guest teachers and composers are also invited to present on matters related to writing technique, compositional research or to give general introductions about their work within broader contexts. The seminars aim to encourage critical thinking and discourse, to help the student analyse and discuss broad composition-related topics in their written form and generally function as a platform in which the student can discuss and receive routine feedback on their own research and writing from their most immediate peers.
Programme objectives	2.A.7, 2.A.8, 2.A.9, 2.A.12, 2.B.7, 2.B.8, 2.B.9, 2.B.12, 2.C.1, 2.C.5, 2.C.9, 2.C.11
Course objectives	At the end of this course, you: <ul style="list-style-type: none"> ▪ are able to analyse, present and discuss written articles; ▪ in so doing have gained insight into composition and logic skills involved with writing and disseminating your thoughts, both in written and spoken form; ▪ have a grasp of broader (cultural, philosophical, sociological, political) functions of composition and art in general; ▪ are able to give and receive constructive feedback on own and others' research and are capable of supplying additional information and materials where necessary.

Master Circle 1 & 2

Course title	Master Circle 1 & 2
Department responsible	Master Research
OSIRIS course code	KC-M-AL-MCA1-20; KC-M-AL-MCA2-20
Type of course	Compulsory course

Prerequisites	-
Course content	<p>Throughout the two years of the master programme, students will participate in a monthly Master Circle of first- and second-year students, which is facilitated by a master circle leader. The master circle is the place where the three elements of the Master Project come together and where the Master Project is discussed as a whole. At meetings of the Master Circles, students will discuss the progress of their Master Projects, acquired insights and problems they have encountered with their peers. In addition, circle leaders may host guest lectures from alumni or (guest) professors, as well as provide common assignments and group discussions on topics within the focus area of the circle. There will also be presentation trainings available. In addition, first year students will deliver their Master Project Proposal, demonstrating an understanding of the importance of the three domains of artistic development, research, and professional integration, and indicating their plan for undertaking and completing this important element of the Master programme. The Master Project Proposals can be discussed in the master circle, but will be assessed by the main subject teacher of the student in question, the Head of Master Research and the Head of Professional Integration.</p> <p>From January on, trial presentations for all second-year students will be held in the Master Circles in preparation of the annual Master Research Symposium. You are required to invite your supervisor(s) to this trial presentation. In May, the First Year Master Project Presentations (short presentations about the progress of the first-year students' Master Projects) will take place in the Master Circles.</p> <p>You will be assigned a Master Circle depending on your chosen focus area. The Master Circles are based on the following focus areas:</p> <ol style="list-style-type: none"> 1. Art of Interpretation 2. Instruments, Techniques & Technologies 3. Music in Public Space 4. Creative Processes 5. Beyond Discipline 6. Musical Training, Performance & Cognition 7. Aesthetics & Cultural Discourse 8. Co-creative and Educational Settings 9. Music Theory & Aural Skills 10. Research Trajectory 1

Course title	Research Trajectory 1
Department responsible	Master Research
OSIRIS course code	KC-M-AL-RT1-20
Type of course	Compulsory course
Prerequisites	-
Course content	<p>The main goal of the Master of Music programme is for students to develop and complete their own Master Project that will help them realize the professional practice they aspire by integrating three domains: artistic development, research and professional integration. As part of your Master Project you will do research that will help you to reach your goals for your artistic/musical/educational practice. You will present the findings of your research in the context of your Master Project on the Research Catalogue and in a public presentation during the Master Research Symposium, which is held in March or April of each year.</p> <p>You will have a personal research supervisor who is knowledgeable in your focus area. You are entitled to 15 hours of individual supervision, including your supervisor's attendance at your trial presentation and final research presentation, over the entire course of the programme (including time spent with an external supervisor, if applicable). If you are writing a thesis, you can request 5 additional hours of supervision before 1 May of your first year. Students and supervisors are advised to discuss which format (thesis or exposition, see course description of 'Research Trajectory 2') best suits the chosen research topic of the student with Head of Master Research Kathryn Cok in year 1.</p> <p>Both you and your supervisor will use the online Research Catalogue (RC) as a collaborative workspace (www.researchcatalogue.net). The RC is an international database for the documentation and publication of artistic research, and you will use it to document and present the research component of your Master Project. You will receive an introduction to the use of the RC through a workshop as part of the course 'Introduction to Research in the Arts'.</p>
Programme objectives	2.A.7, 2.A.9, 2.A.12, 2.A.13, 2.A.14, 2.B.7, 2.B.8, 2.B.9, 2.C.1, 2.C.6, 2.C.7, 2.C.8, 2.C.11, 2.C.14
Course objectives	<p>At the end of this two year course, you:</p> <ul style="list-style-type: none"> ▪ are able to formulate a clear research question, focus or problem, leading to relevant outcomes for your own practice as well as for the artistic field;

	<ul style="list-style-type: none"> ▪ are aware of what others have done in this area and are able to relate the research to the field of inquiry, with due regard to the correct use of sources; ▪ are able to apply research methods adequate to the research focus, questions or problems, based on a dialogue between artistic practice and critical reflection; ▪ are able to apply a form of documentation that supports the aims and objectives of the research, making use of text, media and artistic material to compellingly communicate the research process and outcomes; ▪ are able to give a compelling presentation that is well timed, organized and communicated to the listeners, illustrating select aspects of the research and including artistic elements.
Credits	7 ECTS
Level	Master
Work form	Supervision sessions
Literature	You will look for relevant literature yourself, based on your chosen research topic.
Language	English
Scheduling	Appointments with your research supervisor. 15 hours over two years, M1 and M2.
Date, time & venue	The frequency of supervision is entirely up to the supervisor and to you and will differ from one individual to another.
Teachers	Your research supervisor will be selected from a pool of experienced teachers and researchers who are knowledgeable in your focus area. Research supervisors are trained to support you for the duration of your research trajectory, but may not necessarily be an expert in your topic. Should this be deemed necessary, you may choose a supervisor from outside the pool of supervisors, with whom you can work part of the time in conjunction with your assigned supervisor. Such an external supervisor could be an eminent musician or scholar who is not connected to the conservatoire and who is specialised in the area of the research you are planning to undertake. A proposal for an external supervisor will have to be discussed by 1 October 2026 with the Head of Master Research.

The RC is an international database for the documentation and publication of artistic research, and you will use it to document and present the research component of your Master Project. You will receive an introduction to the use of the RC through a workshop as part of the course 'Introduction to Research in the Arts'.</p>
Programme objectives	2.A.7, 2.A.9, 2.A.12, 2.A.13, 2.A.14, 2.B.7, 2.B.8, 2.B.9, 2.C.1, 2.C.6, 2.C.7, 2.C.8, 2.C.11, 2.C.14

Course objectives	<p>At the end of this two year course, you:</p> <ul style="list-style-type: none"> ▪ are able to formulate a clear research question, focus or problem, leading to relevant outcomes for your own practice as well as for the artistic field; ▪ are aware of what others have done in this area and are able to relate the research to the field of inquiry, with due regard to the correct use of sources; ▪ are able to apply research methods adequate to the research focus, questions or problems, based on a dialogue between artistic practice and critical reflection; ▪ are able to apply a form of documentation that supports the aims and objectives of the research, making use of text, media and artistic material to compellingly communicate the research process and outcomes; ▪ are able to give a compelling presentation that is well timed, organized and communicated to the listeners, illustrating select aspects of the research and including artistic elements.
Credits	12 ECTS
Level	Master
Work form	Supervision sessions
Literature	You will look for relevant literature yourself, based on your chosen research topic.
Language	English
Scheduling	Appointments with your research supervisor. 15 hours over two years, M1 and M2.
Date, time & venue	The frequency of supervision is entirely up to the supervisor and to you and will differ from one individual to another.
Teachers	Your research supervisor will be selected from a pool of experienced teachers and researchers who are knowledgeable in your focus area. Research supervisors are trained to support you for the duration of your research trajectory, but may not necessarily be an expert in your topic. Should this be deemed necessary, you may choose a supervisor from outside the pool of supervisors, with whom you can work part of the time in conjunction with your assigned supervisor. Such an external supervisor could be an eminent musician or scholar who is not connected to the conservatoire and who is specialised in the area of the research you are planning to undertake. A proposal for an external supervisor will have to be discussed by 1 October 2026 with the Head of Master Research.

Assessment	This course is assessed using the following assignment. The assignment needs to be passed in order to pass this course.
Assignment	Assignment 1
Assignment type	Master Research Presentation
Assignment description	The presentation of the findings of your research in the context of your Master Project is two-fold: a written

	<p>submission via the Research Catalogue and an oral presentation during the Master Research Symposium.</p> <p>While the format of presentation and documentation may vary greatly depending on the nature of the research, its outcome, and your main subject study, there must be a coherent relationship between the research subject and the resulting documentation and presentation. You should be aware of the importance of the research subject for your own artistic development, for your Master Project, for other students and/or for the music world at large. In the three semesters leading up to the presentation of the research, you will have developed a viable research question, and undertaken research with the guidance of a research supervisor. The results should have a significant impact on your performing practice.</p> <p>The final documentation of the research results must take the form of either a research exposition or thesis and must be presented on the Research Catalogue. Students and supervisors are advised to discuss which format best suits the chosen research topic of the student with Head of Master Research Kathryn Cok, in year 1. During the Master Research Symposium you will give a 30-minute presentation of of your research to the committee of examiners in front of an interested audience. The presentation is followed by 15 minutes of questions from the committee of examiners and if time allows, members of the audience. You may use your own device; a screen as well as a back-up computer will be present. If other materials are required (instruments other than a grand piano, equipment, technology, etc.), you must arrange this yourself (via the Planning Department, the IT Department and/or the Electronics Workshop). We will make sure the grand piano has been tuned, but we are not responsible for the tuning of other instruments. The live presentations will be recorded and filmed for quality assurance purposes. This material will only be for internal use and school archives, and cannot be shared with students for personal use.</p>
<p>Assignment requirements</p>	<p>Research exposition or thesis The exposition or thesis must be written in English and adhere to one of the following two formats:</p> <p>1. Research exposition The research exposition is the culmination and final product of an in-depth period of research, and should include: critical thinking, source evaluation, and documentation. Information should be presented in a defined structure, including an introduction, a body and a conclusion. The research exposition should also serve as a vehicle for sharing new or expanded knowledge with the wider world. It should be centered upon a process that concerns your musical/educational practice, and at</p>

the same time should demonstrate acquired research skills. In the research exposition, the balance between the use of text and the use of other media (audio, video, scores, images) may vary. Whatever style you choose for the final dissemination of your research, your artistic/educational practice should remain central to the research and the resulting research exposition. You should decide, in consultation with your supervisor(s), what balance and configuration of words, sounds and images, are appropriate to the communication and publication of your research. Here the multimedia possibilities of the Research Catalogue make it possible to choose the most adequate format of the final research exposition.

You are encouraged to embed non-textual elements of your research directly into your written work on the RC, the action of doing so providing you with additional multimedia research and documentation skills. This, in addition, aids the presentation and dissemination of your research results to the wider world.

Please note:

- You must adhere to the rules for quoting sources as addressed in the Introduction to Research in the Arts course;
- Suggested word count: 5,000-10,000 words, with an absolute maximum of 40,000 words.
- The exposition must be uploaded into the Research Catalogue for submission.

2. Thesis

If you wish to write an academic thesis, you should produce a substantial document with a defined structure, including an introduction, a body and a conclusion, in which you document your research through reasoning and the use of evidence and the correct use of sources. Students planning to continue on to a PhD programme are advised to choose this format. Your artistic/musical/educational practice will still be the point of departure. You are encouraged to embed non-textual elements of your research directly into your written work on the RC, the action of doing so providing you with additional multimedia research and documentation skills. This, in addition, aids the presentation and dissemination of your research results to the wider world. The committee of your research presentation will include at least one member with a PhD.

Please note:

- You must adhere to the rules for quoting sources as addressed in the Introduction to Research in the Arts course.
- Suggested word count: 15,000-20,000 words, with an absolute maximum of 60,000 words.

	<p>- The thesis must be uploaded into the Research Catalogue for submission.</p> <p>Regardless of the chosen format, the research documentation should contain the following information:</p> <ol style="list-style-type: none"> 1. A Title Page (including title, your name, main subject, student number, date, Royal Conservatoire The Hague, name(s) of research supervisor(s) and the final chosen format of documentation (Exposition or Thesis); 2. The research question or issue addressed and its relevance for peers, your own artistic development and the music world at large; 3. A description of the research process (the search for the solution to the research question) including methodology; 4. An analysis or critical discussion of the findings; 5. Conclusions; 6. A list of the sources consulted: next to the bibliography this may also include a list of interviews, experiments, etc; 7. The exposition or thesis should include performance registrations, transcriptions, original compositions, musical analysis, instruction manuals, images or other material relevant to the research. It should be structured and embedded within the Research Catalogue. <p>Master Research Symposium - Presentation During the Master Research Symposium you are required to give a 30-minute presentation of your research in English to the committee of examiners, having chosen an appropriate format of presentation and documentation. Your presentation should include live performance or audio and/or video examples in order to demonstrate the outcomes of your research. You are in particular encouraged to demonstrate outcomes in connection to your own practice. You should also make clear in your presentation how your research connects to your artistic development and PIA. Your presentation will be followed by 15 minutes of questions from the committee of examiners.</p>
<p>Assignment planning</p>	<p>25 November 2026: Preliminary version By 25 November 2026, a preliminary version of the final research exposition or thesis must be submitted in English to the Research Catalogue. This deadline is designed as a check-in point for M2 students, their Research Supervisors, and the Master Research Team. Students should invite their Research Supervisor to their exposition or thesis at least two weeks before the deadline to receive their feedback on the contents or current state of the research. The Head of Master Research will then provide feedback on the design and scope of the exposition or thesis, which at this point should at least include:</p>

	<p>1. A title page that is complete and reflects the contents of the research 2. An embedded Table of Contents 3. Chapters with content (text and media) 4. A bibliography 5. Footnotes This is an opportunity to receive valuable feedback in the run-up to your final version.</p> <p>10 February 2027: Research abstract By 10 February 2027, an abstract of your research must be submitted in English, containing the following: 1. Your name 2. Main subject 3. Name of research supervisor(s) 4. Title of research 5. Research question 6. Summary of the results of the research (max. 200 words) 7. Short biography (max. 100 words) 8. At least 3 keywords This abstract will be included in the Master Research Symposium programme book.</p> <p>10 March 2027: Deadline research exposition or thesis A complete digital version of the final research exposition or thesis must be submitted in English on the Research Catalogue by 10 March 2027.</p> <p>12-16 April 2027: Master Research Symposium Your research presentation will take place in the week of 12-16 April 2027, in one of the studios of the Royal Conservatoire. You will be given your grade and feedback immediately following the deliberations of the committee. Once the schedule has been made and communicated via ASIMUT (koncon.asimut.net), it is no longer possible to change times, dates and/or locations. Any date preferences should be sent to the Coordinator Master Research by 1 October 2026. In order to make a correct schedule for the Master Research Symposium in April 2026, all 2nd year students should inform the Master Research Team by 1 October 2026 if their chosen format is a thesis. After this date it is no longer possible to alter the format.</p>
Assessment criteria	For a detailed assessment rubric including the exact assessment criteria for the Master Research Presentation, see Appendix 5 of this curriculum handbook.
Weighting	100%
Grading scale	Numeric
Re-assignment description	The same as the original assignment; students may be asked to improve the research exposition or thesis, give an improved research presentation, or both.

Re-assignment planning	The re-examination deadline for the research exposition or thesis is 12 May 2027; the re-examinations of the research presentations takes place on 21 and 22 June 2027.

PROFESSIONAL INTEGRATION

Introduction to Project Management

Course title	Introduction to Project Management
---------------------	---

Department responsible	Master Professional Integration
OSIRIS course code	KC-M-AL-IPM-20
Type of course	Compulsory course
Prerequisites	Non applicable
Course content	This course will prepare you to design your own Professional Integration Activity (PIA). You will develop competencies and understanding of the skills required to effectively design, develop and realise artistic projects. The course consists of five seminars with accompanying assignments in which you will develop a plan for your Professional Integration Activity (PIA). You will be taught to create the following components that together will form a project plan: a brief description of your PIA that defines the values to be created, the quantifiable results and the goals, a product based planning, a budget, a risk analysis, a pilot/prototype in which you test the essence of your PIA, a communication plan.
Programme objectives	2.A.1, 2.A.2, 2.A.3, 2.A.4, 2.A.5, 2.A.7, 2.A.8, 2.A.9, 2.A.10, 2.A.12, 2.A.13, 2.A.14, 2.A.15, 2.B.9, 2.B.12, 2.C.1, 2.C.2, 2.C.3, 2.C.4, 2.C.5, 2.C.6, 2.C.7, 2.C.8, 2.C.9, 2.C.10, 2.C.11, 2.C.13, 2.C.14, 2.C.15, 2.C.16
Course objectives	At the end of this course, you will be able to: - demonstrate an understanding of a variety of project management topics; - formulate your own professional goals; - create a brief description of an artistic project.
Credits	2 ECTS
Level	Master
Work form	Seminars, tutorials, individual study, assignments

Professional Integration Trajectory 1

Course title	Professional Integration Trajectory 1
Department responsible	Master Professional Integration
OSIRIS course code	KC-M-AL-PIT1-20
Type of course	Compulsory course
Prerequisites	Non applicable
Course content	<p>In this course you develop and realise your Professional Integration Activity (PIA) with the help of a professional integration coach. A PIA is an activity initiated by yourself that connects you with the professional practice you want to be active in and therefore brings you outside the walls of the conservatoire. It is an activity that brings you one step further in the direction of your goals for your (future) professional practice. The PIA is driven by your artistic development goals. It can be supported by your research, or it can function as a case study for your research. It is also the starting point for a professional practice that stretches beyond the duration of your master's programme. You will be assigned a Professional Integration Coach in September of your first year. You are entitled to 9 hours of coaching spread over the two years of your master studies.</p> <p>You will finish your Professional Integration Trajectory at the end of the 2nd year of the master by writing a self-</p>

	reflective report in which you reflect on the process and deliverable of your PIA. In preparation for this, you will do a pilot or create a prototype of your PIA. You start working on this in the first year of the master. The formative assignment in which you describe your pilot/prototype and provide documentation is due in November of your 2nd year.
Programme objectives	2.A.1, 2.A.2, 2.A.3, 2.A.4, 2.A.5, 2.A.7, 2.A.8, 2.A.9, 2.A.10, 2.A.12, 2.A.13, 2.A.14, 2.A.15, 2.B.9, 2.B.12, 2.C.1, 2.C.2, 2.C.3, 2.C.4, 2.C.5, 2.C.6, 2.C.7, 2.C.8, 2.C.9, 2.C.10, 2.C.11, 2.C.13, 2.C.14, 2.C.15, 2.C.16
Course objectives	At the end of this course, you: - will be able to design, develop and realise professional activities that are initiated by yourself; - have developed an understanding of how artistic goals can shape a project and how research can support and contextualize a project or activity.

Assessment	This course is assessed using the following assignment. The assignment needs to be passed in order to pass this course.
Assignment	Assignment 1
Assignment type	Progress Assessment
Assignment description	In April of your first year, your coach will be asked to write a brief report on the progress of your PIA, which will also be sent to your master circle leader.
Assignment requirements	You need to be in contact with your coach and regularly update them on your progress.
Assignment planning	The progress report is submitted by your coach in April of your first year.
Assessment criteria	<ul style="list-style-type: none"> - good communication with your coach - having settled on a viable PIA - having a clear idea on what steps to take to realise your PIA - showing motivation in moving forward with development of your PIA
Weighting	100%
Grading scale	Pass/Fail
Re-assignment description	A 'fail' mainly functions as a warning and indicator; your coach can re-assess your progress once you are back on track.

Re-assignment planning	If you do not pass the first time, your progress can be re-assessed by your coach at any point in time.

Assessment	This course is assessed using the following assignment. The assignment needs to be passed in order to pass this course.
Assignment	Assignment 1
Assignment type	External activities
Assignment description	Evaluation of activities on the basis of the submitted form, with the addition of materials relevant to the activities (promotional materials, programmes, recordings etc.). See the appendix for further information and the assessment criteria below.
Assignment requirements	Procedure

	<p>When you apply for CDO credits for activities outside the conservatoire, you need to do this via a form which will be presented as an assignment in MS Teams. You will need to fill in the information sections of the form once each activity has been completed, and also upload any relevant materials (promotional materials, programmes, links to recordings etc.). You will also need to fill in the reflective section of the form describing your most significant work experiences during the academic year, and what you gained from participating in them. The completed form then has to be submitted for approval by the CDO, after which the relevant number of study credits will be allocated to each task (see appendix). Allocation of CDO credits is done by a teacher nominated by the Head of Department. In case of any disagreement or conflict the results will be evaluated by the Head of Department. CDO credits are based on a standard of 1 ECTS = 28 hours work.</p>
<p>Assignment planning</p>	<p>Master I students: you can obtain CDO credits from activities from 01-09-26 to 31-08-27. Master II students: you can normally obtain CDO credits from activities from 01-09-26 to 01-05-27 (assignment submission deadline). If the activity occurs outside those dates it will not be valid for the 26/27 academic year.</p>
<p>Assessment criteria</p>	<p>Assessment criteria including Pass/Fail indications:</p> <ul style="list-style-type: none"> ● Basic information (hours invested etc.) Pass: Times and dates clearly indicated and hours invested are accurate and divided where necessary. Fail: Not credible, unclear or absent, project dates are outside the enrolment period or academic year. ● Presentation of report Pass: A lot of care and attention has been given to both presentation and content. Fail: Insufficient content. ● Learning experience/ability to reflect Pass: Excellent information about and reflection on learning experiences during project/activity. Good perspective on plans for future projects/activities with points for improvement where necessary. Fail: Little or no information about content and lack of reflection with regard to what has been learned during the project or activity. ● Project content Pass: Challenging project that has a relevant connection to the master programme. Student has been involved in many aspects of the project (organisation/promotion/management etc.). Fail: Level is too low or not relevant to the master programme. Passive rather than active involvement in masterclasses. ● Proofs/ publicity material (where possible) Pass: At least three of the following: programme, rehearsal/teaching schedule, attractive photos, sound or video recordings etc. included with submission.

	Fail: Photos, programme or other proofs not present.
Weighting	100%

APPENDIX 1: ASSESSMENT CRITERIA MASTER COMPOSITION – MAIN SUBJECT

The assessment criteria for the Bachelor and Master Composition Main Subject are the same. Master's students are expected to work on more substantial projects/works - both longer in duration as in time investment to compose a work. In the master's programme a higher level of mastering compositional complexities is expected. Complexity can be pure musical or a possible result of collaboration, for example with other disciplines.

	9 - 10	7,5 - 8,5	5,5 - 7	0 - 5
Authenticity/Originality	Very authentic approach, highly individual musical language resulting in original works. Shows strong artistic personality.	Has found a genuine and sincere musical language but not very original.	Works clearly in a general defined and known musical idiom.	Shows no artistic personality. Can't get away from beaten tracks.
Craftsmanship/ Technique (working with/ developing musical material)	Shows fantasy and knows exactly to define the right technique for specific compositional matter. Is capable of developing new techniques for new situations.	Is capable of applying a diversity of composition techniques with good result.	Use of enough composition techniques with average result.	No insight in good use of composition techniques or in individual development of them.
Instrumentation	Has found a highly personal way of instrumentation (electronics included) that fits the musical concept perfect and/or a very detailed knowledge about instrumentation in general.	Working from a diverse palette of instrumentation with good results.	Instrumentation level is functional but not innovative or personal.	Shows no fantasy or affinity with instrumental colour or instrumental techniques.

(continued on next page)

	9 - 10	7,5 - 8,5	5,5 - 7	0 - 5
Conceptual thinking	Found very solid balance between conceptual starting points and pragmatic issues. Is capable of building musical structures from pure conceptual thoughts.	Is aware of potency of conceptual thinking and can apply this with good results.	Conceptual abilities are average. Shows not much evidence of consistent and deeper abstract thinking.	Does not know how to apply conceptual strategies to composition or how to transform a concept into musical language/material.
Notation grade	Developed a specific notation that suits the musical idiom very well and/or a very refined mastery of instrumentation in general.	A good level in notation. Is able to notate/document any musical idea.	Notation is enough to make a musical idea clear to performers.	Shows no affinity with notating/documenting a musical idea in detail.
Composition research	Is inventive and consistent in defining and performing composition research as a preparatory phase to the composition process.	Research results in enough ideas or strategies to develop the composition process with good results.	Composition research is average resulting in acceptable but not high quality artistic planning.	Very shallow research resulting in meagre artistic planning.
Self-reflection/ Analytical capacities	Is very capable of analysing and describing their own artistic processes and position within the current developments in the arts. Is able to decide on the next artistic steps as a result of being highly self-reflective.	Is analytic, but could be more inventive in drawing artistic conclusions based upon that analysis. Is able to go into new directions with good results. Is aware of their own position within the current developments in the arts.	Self-reflective and analytic qualities are enough to be able to come up with ideas to explore new artistic directions with average result.	No abilities in self-reflection. Cannot see their own development in a greater perspective.

Learning objectives	Assessment criteria	Points					%
		1	2	3	4	5	
The student is aware of how artistic research can be used to develop skills as a reflective practitioner	The student has demonstrated an awareness of the role artistic research plays in the development of reflective skills	Currently no evidence of understanding or awareness of the benefits of the role of artistic research as a reflective skill.	Limited understanding or limited awareness is evident. However, student is in contact with head of research.	Student has demonstrated a willingness to improve understanding or awareness and is in contact with head of research.	Good understanding and awareness evident and student has taken the necessary steps to apply themselves to the course-work.	Excellent understanding and awareness evident and student is on track towards developing a viable Master Project topic and to complete the course-work.	25%
The student understands how to use source materials correctly	The student has demonstrated the correct use of source materials	No evidence or understanding of the use of source materials in the documentation of artistic research.	Incorrect use of source materials demonstrated in the assignments, but student has sought advice/help in this area.	Adequate use and understanding of source materials demonstrated and student is showing more dedication to the requirements of the course-work.	Correct and fitting use of source materials have been demonstrated and student has shown considerable improvement in this important area of the course.	Excellent use of source materials demonstrated. Student is able to work independently and apply their understanding to a high level.	25%
The student is aware of the possibilities for effectively documenting research results	The student has demonstrated an understanding of the skills required to document their research results	No awareness of skills needed for research documentation.	Limited understanding of skills needed for documentation and help is needed.	Adequate understanding of skills needed for documentation and student is demonstrating improvement in this area of the coursework.	Good understanding and demonstration of skills needed for documentation and student is able to function independently in the documentation of their artistic research discoveries/results.	Excellent understanding and demonstration of skills needed for documentation and student is able to apply themselves accordingly.	25%
The student is able to document their project process and results on the Research Catalogue	The student has demonstrated the ability to document their project process and results on the Research Catalogue	Research Catalogue is not used.	Research Catalogue is used ineffectively.	Research Catalogue is used adequately.	Research Catalogue is used well.	Research Catalogue is used well and creatively.	25%
